# International Conference *Mathematics and Image Analysis 2012* **MIA'12**

## Announcement

This new edition of the Mathematical Image Analysis conference series will be held in Paris in January 2012. It is a sequel to the previous editions that were held in 2004, 2006 and 2009 and 2006, with more than 250 participants each time. It is organized by GDR MSPC with the support of Région Ile-de-France. The scientific program includes invited conferences at the interface between applied mathematics (PDE's, Statistical Methods, Sparsity, Level sets, Variational methods, etc.) and new developments in various areas of computer vision, graphics and imaging.
