Prépublications (doctorants)

[PDOC1] Ardon R., Cohen L.D., Yezzi A. A new implicit method for surface segmentation by minimal paths in 3D images

[PDOC2] Basile G., Bernardin C., Olla S. Thermal Conductivity for a Momentum Conserving Model. Preprint [hal-00017718 - version 2] (05/04/2006) and Ceremade 2006-3.

[PDOC3] Benmansour S., Jouini E., Marin J.-M., Napp C. and Robert C.P. Are risk agents more optimistic ? A Bayesian estimation approach.

[PDOC4] Casarin R., Marin J.-M. Online data processing : Comparison of Bayesian regularized particle filters.

[PDOC5] Casarin R., Trecroci C. Business Cycle and Stock Market Volatility : A Particle Filter Approach. Ceremade 2006-10.

[PDOC6] Perthame B., Dalibard A.-L. Existence of solutions of the hyperbolic Keller-Segel model.

[PDOC7] Rainero S. Grandes déviations pour une équation différentielle stochastique rétrograde à horizon aléatoire. Application à l'étude d'une ÉDP elliptique semi-linéaire. Ceremade 2006-29

[PDOC8] Samassi L., Tahraoui R. How to state necessary optimality conditions for control problems with deviating arguments. Ceremade 2006-24
