

PR[AI]RIE

PaRis Artificial Intelligence
Research InstitutE

<https://prairie-institute.fr/>

FOUNDING MEMBERS AND PARTNERS

Top Research and Education Academic partners

→ CNRS and INRIA: among the world main research producers in AI

→ PSL: ENS, Mines, Dauphine, EPHE,... First French University in the QS ranking (rank 53).

Industry partners

→ A “3IA” institute (Institut Interdisciplinaire en Intelligence Artificielle)
(highly competitive national call – International Jury – Only four centers in France,
one in Paris area).

A NETWORK OF INTERNATIONAL PARTNERS

THE INSTITUTE

**A unique pool of AI top leaders
supported by internationally
renowned laboratories**

Science driven

Core and interdisciplinary chairs

- 40 Chairs top leaders in AI (selected individually by an international jury).
- PhD, postdocs and associated teams: 200 researchers in one building + synergies with our labs.
- A pool of engineers.

Main domains

- Core AI and Machine Learning.
- Health, Transport, Environment.
- SSH (a call for projects of 500ke/year minimum, coordinated by PSL).

Synergies

- With the existing Research programs in AI applied to SSH, Chemistry, Physics, etc. of PSL, and the construction of an interdisciplinary group on Ethic/Bias/Explanability (+ creation of new chairs on these topics).

THE INSTITUTE

The best French (Dauphine, ENS, Mines, etc.) and Foreign Students trained by top academia

A leader in AI education

Core AI

- Mathematics Apprentissage et Sciences Humaines (MASH | PSL).
- Intelligence Artificielle, Systèmes et Données (IASD | PSL) – open also through apprenticeship (“alternance”).
- Advanced lectures at Collège de France.

AI towards applications

- Master Biotentrepreneur (Descartes).
- MVA – Health tracks.
- AI Move Post Master’s degree (PSL).
- Master tracks in SHS (PSL).
- PSL Transverse Graduate Program in AI and applications.
- Etc.

Executive education

- Executive master in statistics and big data (PSL).
- Executive master in AI and Data Science (PSL).
- Data Science certificate (PSL).
- Masterclasses in AI in medicine and Illumens programs (Descartes – ENS).

THE INSTITUTE

**New problems, new data,
new ideas: confront industrial
issues with cutting-edge research**

Collaborative research with cutting edge technological companies

- Joint seminars on hot topics and emerging trends in AI
- Joint scientific and application challenges stemming from industrial problems
- Dedicated start-up programs
- Co-supervision of PhD students
- Etc.

BECOME A PARTNER

Blue Sky Sponsorship (“mécénat”)

- 200k€/year (eligible for tax credit).
- 3 years commitment.

Gain access to

- Direct contractualization with our researchers (besides the initial Blue Sky Sponsorship), or simply discussions.
- Participate to all internal seminars, dedicated workshops (on the application fields of our partners), networking, etc.
- Direct access to high level Master and PhD students (top level recruitments).
- Easier access to software resulting from the PRAIRIE Institute's Fundamental Research and distributed under free license. Free (non-exclusive) commercial use licenses can be offered.
- Possibility of proposing applications from researchers or engineers to be integrated into the Institute's research teams or even to consider joint recruitment of researchers.
- Access to the Institute's internal information digital network.
- Access to start-up (create in PRAIRIE + partners).

State co-founding mechanism

**80k€ of spending =
400k€ invested in
research projects**

Partner: 200k€ costs
80k€ after tax credit.

State: invests additional
200k€ in the Institute.

Shape the future of AI to be the leader of tomorrow in your own sector!

- Share your vision.
- Contribute to creating leading AI solutions.

Merci !
