Errata for *Monte Carlo Statistical Methods* (Fourth Printing)
Last Update: April 10, 2002

page 207 In **Example 5.3.1**, the likelihood should be

\[
L(\theta|y) = [1 - F(a - \theta)]^{n-m} \prod_{i=1}^{m} f(y_i - \theta)
\]

page 314 In the proof of **Proposition 7.2.12**, the first expectation should be \( E[h(Y^{(0)})h(Y^{(1)})] \).
